N. B.—Should notes, etc., be written on small slips the notes must be copied, or the slips pasted on this form.

the removal of the Lunatic and Leper Asylums to a more eligible locality is strongly urged.

The question of the removal of both the Asylums is thus pending for several years and may now perhaps be finally dealt with (at least as regards the Leper Asylum, as recommended by the Sanitary Board), if financial considerations permit.

The places proposed seem to be by the side of the Students' Hostel. No info is given as to whether the building styled Old Chatham is available & on what terms. A report on these matters (with a Plan of the situation) may be called for. Submitted to the Director.

Construction of 2 wards for lepers in the Magadi Plague Camp.

In their Proceedings No. 851 / 765 dated the 5th December 1901, Govt ordered that the lepers confined in the Lunatic Asylum be removed to quarters in the Magadi Plague Camp as a tentative measure.

The Senior Surgeon ~~has now~~ subd with his letter No. 511 d: 5th April 1902, a plan and an estimate amounting to Rs 2573 for the construction of 2 wards for the confinement of the lepers. He was asked

to point out the source in the current year's budget from which the proposed charge could be met. In reply he states that there is no source in the current year's budget to meet this expenditure nor has it been budgetted for in the coming year's budget.

It is not known why new quarters have to constructed, when the Senior Surgeon in his letter No- 635 dated 30th Septr 1901, clearly states that there is ample accommodation at the Magadi Camp.

Sir,

I have the honor to report to Government that on the 13th April 01 the Visitors left it on record that they considered the Lunatic Asylum over crowded, and recommended that permanent or temporary accommodation be provided so that the overcrowding shall cease.

2, I agree with the opinion expressed by the Official Visitors in regard to overcrowding, but not as to the advisability of erecting more b ildings in the Asylum enclosure . The place is overcrowded already with buildings in my opinion and in that of the Superintending Engineer .

3. If we could get the Lepers out of their present abode, the overcrowding for the Lunatics would be at once relieved. There are only few of them (m. f. T. 10 + 9 = 19) and they are a migratory lot of creatures and I think might well be shifted somewhere else. I have looked over the city for other suitable abode, including the Magadi Isolation Camp, the old silladar lines, and found only one or two suitable places; these are the old Chattram beside the Printing Office (x) or a corner of the Jail compound close by which could be walled off by the prisoners in a short time and the necessary houses erected inside by the D.P.W. placed in either of these places they could still be fed and otherwise cared for by the Medical officer in charge of the Lunatic Asylum as they are now. If Government approve of one or other of
